

3_4 LAB

Lesson Time: 60 Minutes

Using SAKILA, INSERT the following new records into the database

Table: actor

first_name	last_name	last_update
Jack	Nicholson	Today's Date
Heath	Ledger	Today's Date
Joaquin	Phoenix	Today's Date

To add the date manually, the format to use is 'YYYY-MM-DD 00:00:00.000'

Table: address

address	address2	district	city_id	postal_code	phone	last_update
111 Main Street	Apt 12	My District	1	12345	(111)123-1234	Today
123 Sunset Blvd	Apt 150	My District	2	12345	(222)222-2222	Today

You can write CURRENT_TIMESTAMP to have SQL auto-use today's date and time instead of writing out 'YYYY-MM-DD 00:00:00.000'

Table: customer

store_id	first_name	last_name	email	address_id	active	create_date	last_update
----------	------------	-----------	-------	------------	--------	-------------	-------------

1	Walter	White	ww@bb.com	1	1	CURRENT_TIMESTAMP	CURRENT_TIMESTAMP
1	Jessie	Pinkman	jp@bb.com	1	1	CURRENT_TIMESTAMP	CURRENT_TIMESTAMP
